## Purchases

### Skill:

- Analysis (AN)

### Time on Task:

- 5–10 minutes

### Goal/Purpose:

- The goal of this activity is to identify your business and to prepare a list of purchases for your business.

*Before merchandise can be sold by a retail business, it first must identify items to be purchased. Or, raw materials must be purchased to manufacture the product. Service-based businesses may also have purchases related to their offerings. For example, taxi companies provide a service but have to purchase gasoline and pay for regular maintenance on their vehicles. Identify the business that you are establishing, and list all the numerous purchases for the business. Your instructor will inform you on the method of submission. This information may be reported to the class according to your instructor's guidelines, so be sure to provide enough information to facilitate a discussion.*
