Activity 14.3A: Biogeochemical Cycles

Instructions

Answer the questions to demonstrate your understanding of the biogeochemical cycles discussed in Lesson 14.3.

1. Water Cycle

A. What occurs?

Answer:

B. Why is it important to agriculture?

Answer:

2. Nitrogen Cycle

A. What occurs?

Answer:

B. Why is it important to agriculture?

Answer:

3. Carbon Cycle

A. What occurs?

Answer:

B. Why is it important to agriculture?

Answer:

4. Which cycle do you think is most important? Explain your answer.

Answer:
